It is a true saying that a single bill paid promptly may be the means of half a dozen people meeting their obligations. This is only a gentle hint to many of our subscribers who are in arrears. Pay us so we can pay others. We MUST have money.

The editor of the Morgan County News announced last week that the paper would be suspended. In lieu thereof a company has been formed which will install a new plant and begin the publication of a new paper to be called the Licking Valley Courier.

Meat is surely high in price at a Virginia town where a boy entered a store and asked for a dime's worth of steak. The butcher took the dime and told the boy to go behind the counter and smell the meat block, then go home and tell folks of the delightful odor as that was all the ten cents would buy.

A Kansas City paper says the cause of hard times and high prices is that "We throw away ashes and buy soap; we raise dogs and buy hogs; we grow weeds and buy vegetables; we catch fish with a \$4 rod; we build schoolhouses and send our children to be educated away from home; we send our boys out with a \$40 gun and a \$10 dog to hunt 10-cent game."

Members of Congress may demand that Robert E. Peary exhibit his proofs to the world in general before voting him a gold medal and the thanks of congress. One of the leaders in the House said he was opposed to accepting the proofs of Peary's claim merely because the National Geographical Society, of which Peary is a member, had said so, but that it should be confirmed by other scientific bodies of the world.

One of the latest additions to American literature to reach our exchange table is a neat, well gotten up, four-column, four-page paper, edited and controlled by the students of Beattyville Collegiate Institute, entitled "The Cellarette." The initial number shows great care on the part of the young promoters and we hope they may be successful in their endeavors to become great journalists of the future. It is to be published monthly.

The Tenth District.

The Lexington Herald has the following in regard to the political situation in this district:

"The race for Congress in the Tenth District this fall will be a warm one and the Democrats are going after the Republican nominee without gloves. Whether Congressman Langley will be a candidate to succeed himself it is not yet certain, but he is not nearly as strong as he was two years ago.

"How Langley has made enemies. He has ignored Republicans and county organizations in many counties, it is claimed, and has lost many supporters. If he is not a candidate it is said that Circuit Judge Kirk, of Johnson District, will be a candidate and that James Wallace, of Irvine, may also enter the contest. The Democrats are preparing to take advantage of what they term a split in the Republican ranks and are looking around for a strong candidate. Several gentlemen are mentioned but the name most frequently heard in connection with the Democratic nomination is that of Hon. John M. Stevenson, a prominent and wealthy lawyer of Winchester. He is being boomed for the race and his many friends say that if Langley is renominated by the Republicans that Stevenson can defeat him 1,500 votes in Clark county."

MEANING OF CENSUS TERMS.

The Bureau's Instructions Concerning a "Dwelling House" and a "Family."

The official definitions of the terms "dwelling house" and "family," with reference to the population schedule to be carried by the enumerators in the Thirteenth United States Census, beginning April 15th next, are explained in the Census Bureau's lengthy printed instructions to the canvassers. It is pointed out that the answers should relate only to conditions existing on April 15th, the "Census Day."

The words "dwelling house" and "family" are, for census purposes, given a much wider application than they have in ordinary speech.

A "dwelling" is defined as a place in which, at the time of the census, one or more persons regularly sleep. It need not be a house in the common meaning of the word, but may be, for example, a room in a factory, store, or office building, a loft over a stable, a canal boat, a tent, or a wigwam. The term also includes a hotel, boarding or lodging house, a tenement or apartment house, an institution or school building, if persons regularly sleep there, as well as the ordinary dwelling house.

A "family," as the census term, may mean a group of individuals who occupy jointly a dwelling place or part of a dwelling place, or an individual living alone in any place of abode. All the occupants and employees of a hotel, if they regularly sleep there, make up a single family, because they occupy one dwelling place, and persons living alone in cabins, huts, or tents; persons occupying a room or rooms in public buildings, stores, warehouses, factories, or stables; and persons sleeping on rivers, canal boats, barges, etc., if they have no other usual place of abode, are regarded as families.

The enumerators are required to enter on the schedule the name of every person whose usual place of abode on April 15, 1910, was with the family or in the dwelling place for which the enumeration is being made. The head of the family is to be entered first; then the wife; next the children, whether sons or daughters, in the order of their ages; and lastly, all other persons living with the family, whether relatives, boarders, lodgers, or servants. The head of the family, whether husband or father, widow or unmarried person of either sex, is to be designated by the word "head;" and the other members of a family as wife, father, mother, son, daughter, grandson, daughter-in-law, uncle, aunt, niece, boarder, lodger, servant, etc., according to the particular relationship which the person bears to the head of the family.

Halley's Comet on the Way.

In a few weeks Halley's comet will make its appearance in the western sky. It will be an object of great interest and promises to be a magnificent spectacle. The Circle, an astronomical publication, from the pen of Waldemar Kaempffert, which will be of interest:

The history of Halley's comet is the history of civilization itself. It flashed upon the world in 240 B. C., during the Punic war of twenty-three years' duration in which Rome triumphed over Carthage. In 66 A. D. it blazed ominously over the city of Jerusalem, besieged by Titus, and seemed to

presage the fall of the Holy City. It was a witness of the Roman empire's reorganization at the hands of Diocletian in 295 A. D., and its partition in 374, by Valentinian and Valens. Attila, self-styled "Scourge of God," was startled by it in 451, just before that bloody battle at Chalons in which he was beaten and which was the last great victory of Imperial Rome. The Saxon invaders of England saw it like a great bow of light in the nightly sky when, in 530, they founded their kingdoms in Middlesex and Essex, and made London a capital.

When William the Conqueror fought the famous battle of Hastings in 1066 and reduced England to Norman subjection it is reported, perhaps mistakenly, to have been equal to the full moon in size, with a tail of alarming length. It reappeared once more in 1301 when Boniface VIII changed the papal biretta for the double tiara, to symbolize the temporal as well as spiritual supremacy of the church. In 1453 the Turks beheld it like a great fiery scimitar held in the invisible hand of Allah and, accordingly, regarded it as an omen of that Mohammedan triumph which began with the fall of Constantinople and which at one time threatened to destroy all Christendom. When it returned in 1531, the momentous English reformation was consummated. It hovered in the sky when Jamestown was settled in 1607 and thus marked the birth of a great republic. Both Shakespeare and Galileo must have seen it at that time. On its next return, in 1682, Louis XIV was King of France, engaged, as usual, in wars with his enemies. In the year 1759, the "wonderful year" of the seven years' war" of English history, it gleamed like a harbinger of victory when Hawke came sailing out of the west. Whenever it has flared up the world has been in a turmoil.

Planting Fruit Trees.

Time for that spring planting of fruit trees is almost here. Do not wait until they have burst forth into leaf before you attend to it. Do it at the first opportunity. Press the soil firmly about the roots, for they are being located for life and need starting off in the best manner possible. Set them with a lean toward the south or south-east, for the summer winds will straighten them within a year or two, and if they are set straight the winds will push them toward the north, which is a bad posture, owing to the summer's sun and the winter's also.

Alternate freezing and thawing will often loosen the soil about the trees set in the fall; and partially raise them out of the ground. For this reason you should in the early spring look after your trees planted the past fall, and pack the dirt firmly about any that may be loosened.

The Farmer Gets Stung.

The Indianapolis (Ind.) News prints that a farmer of Salem, N. J., brought two hogs to a local butcher and offered them for sale. A price was quickly agreed on, and the farmer said he would sell, but wanted the hams and shoulders. To this the butcher agreed and after the weight had been taken the desired parts of the hog were cut off and handed to the farmer, who asked for the balance coming to him. After figuring a moment the butcher replied, "You owe me \$2.85." And the farmer had to pay it.

Breathitt Not In It.

In New York city the events of a day startles one to think of them. Every 40 seconds an immigrant arrives, every 3 minutes one is arrested, every 6 minutes a child is born, every 7 minutes there is a funeral, every 13 minutes a couple gets married, every 42 minutes a new business firm starts up, every 48 minutes a ship leaves the harbor, every 51 minutes a new building is erected, every 5 minutes a passenger train arrives from some point outside the city limit, every 12 hours some one is killed by accident, every 7 hours some fail in business, every 8 hours an attempt to kill some one is made, every 8 1/2 hours some couple is divorced, every 10 hours some one commits suicide, every 2 days some one is murdered.

A Warning to Trespassers.

Len C. Price, the widely known breeder of Shetland ponies, near Lexington, has issued a warning that trespassers, careful of their lives, will be apt to respect. Some time ago time hunters who had disregarded the posted notices on the gate and trees of Mr. Price's establishment, were arrested by the proprietor himself and haled into the county court. The county judge then turned the men loose, with an admonition not to go upon Mr. Price's property again, in spite of the fact that there is a penalty fixed by the statutes for trespassing upon posted property and for shooting any sort of birds or squirrels at this time of year. Since that time Mr. Price has been much annoyed by trespassers, and as a result he feels in view of the action of the county judge there is no course left for him except to protect his own stock and property from such damage. Last week he caused the following publication in the Lexington papers:

"Notice—The county court having refused me protection from hunters and trespassers, common law giving every one a right to protect their lives and property, I warn all hunters and trespassers to keep off of my farms, and trust that all good, law-abiding citizens will stand by me in the protection of my property."

Those who know the veteran of the Civil War this notice is equivalent to saying in so many words that somebody is likely to have singing at his house and not be able to bear it.

Too many hunters too often forget that no man has a right upon another man's property, except with his consent, and that one who goes upon another man's property for an unlawful purpose, or goes in spite of the objection of the owner, is a trespasser. It is a mistake for the officers of the law not to enforce the plain provisions of the statutes. It invariably leads to a disregard of the law and to the danger of violence and bloodshed when men have to take the law in their own hand instead of having the protection from the courts and the officers of the law to which they are entitled.

There is nothing more uncertain than a sure thing.

Does Not Color Hair

Ayer's Hair Vigor, as now made from our new improved formula, does not stain or color the hair even to the slightest degree. Gray hair, white hair, blonde hair is not made a shade darker. But it certainly does stop falling hair. No question about that.

Don't lose the color of the hair. Show it to your doctor. Ask him about it, then do as he says.

Indeed, we believe it will stop every case of falling hair unless there is some very unusual complication, something greatly affecting the general health. Then you should consult your physician. Also ask him about the new Ayer's Hair Vigor.

Charlie Seale, of Booneville, enrolled at the academy Wednesday.

Miss Mattie Rose, of Lee City, came down Tuesday to bring her brother to school.

Frank Sample and wife, of Lacy creek, were here Sunday to see the latter's mother, who is sick.

Granny Combs, of Consolation, whom we reported last week as being at the point of death, is no better.

Children Cry FOR FLETCHER'S CASTORIA

Burn Franklin, colored, commonly known as "Dood," came in town Monday from Ashland, where his father moved about three years ago.

If you wish to invest in some of the most desirable property in Hazel Green, don't fail to attend the sale of town lots by John M. Rose, Saturday, March 5.

Rev. Ragan failed to fill his regular appointment at the M. E. church Sunday on account of the severe sickness of his mother, who lives in Jessamine county.

Rev. Harlan McClure, of our town, left Tuesday morning for the Big Sandy neighborhood to hold a series of meetings. We did not learn how long he would hold.

In sending in subscription for THE HERALD E. C. Kash states that he has been elected cashier of the Provident States Bank, at Goldenrod, Texas, at a salary of \$100 per month.

Mrs. Frank Johnson, of Lacy creek, who was brought to the home of her son-in-law, Porter Lacy, for medical treatment, has been moved to the home of her son, Willie Johnson. She is still in a critical condition.

THE HERALD will soon adopt a new plan. We have quite a number of delinquent subscribers and beginning with April every time a delinquent is mentioned in these columns the name will be inverted, like this rogu gung.

Somewhat of a Blizzard.

The severe storm which began last Wednesday with rain and ended Thursday with a heavy sleet caused much damage to trees and a great deal of distress to stock and mankind. The people of Hazel Green who use gas for heating purposes, etc., were much inconvenienced by the failure of the gas supply Thursday night and Friday morning, and those who had it resorted to coal as a substitute. After much investigation it was found that the main pipe leading to town had become frozen, but was soon thawed out and the gas supply is as good as ever.

Gone to Cincinnati.

Miss Falay Long is now in Cincinnati attending the millinery openings and studying the styles of the coming season. She will remain a month probably in the employ of the Samuel Ach Co., wholesale milliners, the best in Cincinnati. Miss Long is planning for a greater season in millinery than ever before. L. dies wait anxiously for her return, for then she will be prepared to deck your head with a "crowning triumph."

Change of Location.

Yours truly,

SCOTT LACY.

Things Have Changed.

In our day we have heard many men swear by the Godseternal to get out of paying a year's subscription which was due us, but not longer ago than yesterday one of the real gentlemen of Kentucky dropped in and unsolicited paid up his arrears and a year in advance and then tipped the bunch on the side. On the strength of that timely tip we are going to try and make an extra splash this week and then all go out and have a time.

We are under obligations to J. Richmond Debush, a former Hazel Green boy, for a late copy of the Sentinel (Okla.) Leader. From it we learn that the infant child of Kelly Debush, which has been seriously ill for some time, had so far recovered as to be out of danger.

Some people think it a mystery that notwithstanding good advice their boys grow up to be wild and reckless young men. If these boys were taught from infancy that home was the proper place for them after dark, rather than prowling around the streets, annoying well and sick people alike, much of this mystery might be explained, and young men with better moral character and more intelligent minds would be the result. No parent need expect pure morals in a boy that prowls the streets at night, even if he does go to Sunday school.

KENTUCKY KERNELS

Carefully Collected and Concisely Chronicled.

The local option election in Nicholasville last week resulted in a victory for the "wets." The town had been local option since 1906.

Editor Chappell, of the Hyden Thous and Sticks, is advertising for sale twenty-five acres of land on Devil Jump branch of Hell-for-Sartin creek. Nice location.

The Christian church at Junction City was robbed one night last week. The thieves carried away the stove, all the coal in the cellar, and the wine used for communion services.

Mrs. James Hunt, aged 67 years, was burned to death while sitting before an open grate in her home in Danville. She was a paralytic and alone in the house when her clothes caught fire.

Diphtheria is reported to be raging in an epidemic form in the Sharpshooter neighborhood, in Bath county, and public schools have closed. Public gatherings generally are poorly attended.

Deputy Marshal Mays returned to Lexington last week after a raid on moonshiners, covering a great part of the mountain section, in which two stills were destroyed and three moonshiners arrested.

On Cane creek, in Breathitt county, about four miles from Jackson, a large overhanging rock fell from the side of a mountain blocking the wagon road and filling up the creek. Clay Watkins missed being caught under it by only twenty feet.

W. N. Fitzgibbons, arrested last week in Lexington for robbing the offices in three buildings, confessed his guilt and says he has followed the business in nearly every large city from Canada to Mexico, and from the Atlantic to the Pacific, using a small typewriter screw driver to open desk drawers.

William Turvis, a young Bath county farmer, treed some squirrels about two weeks since and in order to get them cut down the tree. One of the limbs struck him before he could get out of the way and broke his leg in two places. Amputation was necessary and he died from the effects.

Owing to the illness of one of the grand jurors in Nicholas county it was necessary to appoint another jurymen and re-empanel them. Judge Fryer recharged the jury, laying special stress on the murder of Hiram Hedges a year ago by night riders. In consequence an indictment was found against Robert Barr, Jr., as being one of the parties.

A special federal grand jury was empaneled at Covington last week to investigate the doings of the Burley Tobacco Society and found indictments against twelve prominent Grant county citizens for interfering with interstate commerce and intimidating a shipper by preventing W. T. Osborne, of Dry Ridge, from sending four hogheads of tobacco to the Cincinnati market a year ago.

Mrs. George Jackson, of Greenup, was severely but not dangerously burned last week as the result of an epileptic fit. She was standing before an open grate when taken and fell into the fire. The right side of her face, her right hand and arm, and the hair on the right side of her head were badly burned. This is the second time Mrs. Jackson has been burned as the result of a faint.

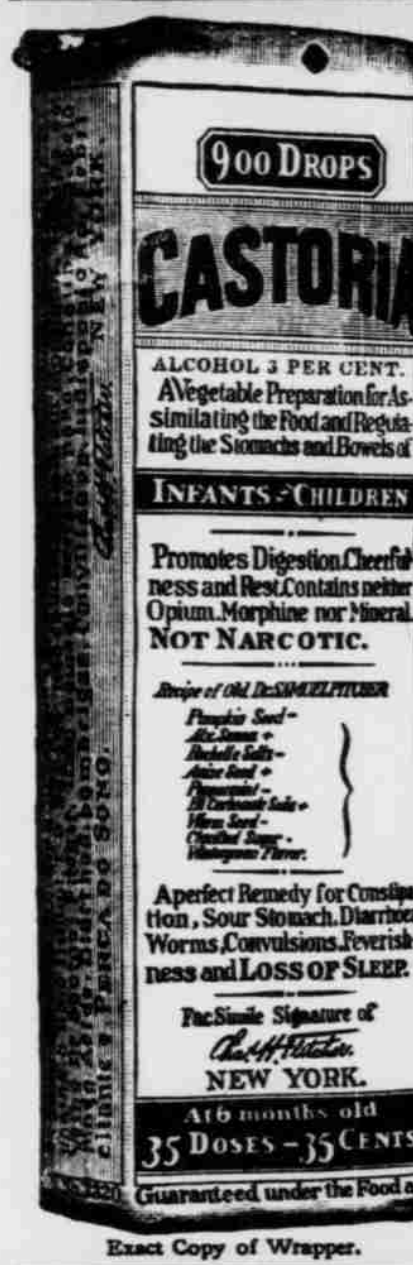

Caleb Stone, aged about 74 years, former Kentucky feudist, with a record of thirty-three murders, having repeatedly fought John Wright, another feudist, and his lieutenants, and on one occasion killing three men who were laying in ambush near his home, was found dead in bed last week from heart failure at his home near Big Stone Gap, Va., where he had lived quietly for several years.

Some boys in Paris while coasting last Saturday found the body of a man encased in snow and ice. Upon investigation it proved to be that of Mason Talbott, who was last seen Thursday. It is supposed that he became bewildered in the blizzard and succumbed to the cold. He fell at a point where the snow had badly drifted and the body had to be dug out with pick and shovel. He was 35 years old and unmarried.

The Winchester Democrat has the following to say about its neighbor on the west: "Most people know that Lexington has rather an unsavory reputation abroad, but we hardly thought it was as bad as that given by a family from the mountains who recently decided to move to that city. The night before leaving their mountain home a member of the household was heard to wind up her prayer by saying, 'And now good-bye, Lord, we are going to live in Lexington!'"

DRUG HABIT GROWING.

Estimated Seven Million People in the United States are Slaves to Morphine and Other Drug Habits.

[Western Trade Journal.]

It has been fully demonstrated that drunkenness, either from liquor, opium, morphine or cocaine habits, is a disease, for excessive use of either brings about drunkenness in some form, and being a disease should be treated as such, and treated scientifically and understandingly, for we have far too many so-called "cures" that have proven more fatal than the disease. What we need is a cure that cures, and leaves the patient as strong and vigorous in mind and body as he was before he became afflicted and enables him to realize like Richard, "that he is himself again." In this connection we regret to say that the treatment of these habits has become a speculation. There are "branch institutions" scattered far and near, in most instances in charge of inexperienced men who know no more of the disease and the remedy employed than the most extant Aborigines. The history and character of the alleged cure of the drug and liquor habit is familiar to hundreds of sufferers all over the land, and needs no further reference here.

The man or woman who is chained in bondage by the morphine, cocaine, opium or liquor habits deserves the sympathy of all. The habit is attained from various causes, and before the unfortunate are aware of it they are bound in chains of iron which they can never break. So it is with injustice, if not inhumanity, that some look upon the victims of these habits with reproach—as well as impute wrong to a poor unfortunate who has stumbled and fallen in front of a passing train. Now a word in relation to cure of these unfortunate—for, as we said in the beginning, there is no longer any question that morphine, cocaine, opium and liquor habits are a disease and should be so treated. Reference is had in this connection to the Hord Sanitarium, the justly famous treatment specialized at Shelbyville, Indiana, where is supplied the only specific and harmless cure for those addicted to the use of morphine, cocaine, opium and liquor habits, and will cure the worst cases no matter how long standing or severe the case may be—the management is so positive they can cure the worst cases of above mentioned habits that they ask no pay until satisfied that you are cured, they have the only know formula that absolutely destroys the desire and craving without injury to the body. This treatment is an antidote,

hypnotic and an eliminator. It leaves the patient in perfect health, strengthened, both mentally and physically. Every one must go to their sanitarium.

This treatment has stood the practical tests of curing the most hopeless cases, as the testimonials from those cured by this treatment abundantly prove. It is safe and invigorating. This cure is unsurpassed by anything in the entire range of medical science. At the Hord Sanitarium some wonderful cures have been performed, and patients are treated and cured so thoroughly that they never desire to return to their old habits.

Ignorance can do as much harm with liquor or drug remedies as it can with mercury or arsenic. The Hord Sanitarium is an institution of high standing, that has been curing drunkenness and other habits for years, and can cure any case no matter how long standing, or how much used. Instead of being simply a specific, this cure is generic in character; it removes the cause from which arises the morphine, cocaine, opium and liquor habit. It has cured every case of functional nerve disorder to which it has been applied. The patient becomes a new person under this treatment. When discharged his head does not feel like a buzz saw in it; on the contrary, he is rejuvenated and restored, physically and mentally, and his mind is clear and natural, no bad effects following. This method of treatment has brought health, peace and happiness to patients ever since its introduction, and has a record of positive cures not enjoyed by any like institution in the land. L. J. Hord is manager of the Sanitarium.

Won't Need a Crutch.

When Editor J. P. Sossman, of Cornelia, N. C., bruised his leg badly, it started an ugly sore. Many salves and ointments proved worthless. Then Bucklen's Arnica Salve healed it thoroughly. Nothing is so prompt and sure for ulcers, boils, burns, bruises, cuts, corns, sores, pimples, eczema or piles. 25c at all dealers.

Values of Trees.

Every land owner should inform himself on the value of trees. If he has a plot of ground on which is growing timber, not mature, and the soil is not assuredly more valuable for something else, this timber should be cared for and the land managed so that it will provide a pasture also. Once our farmers appreciate the asset that a good tree is now, and the greater it will become, they will plant trees in every nook and corner where it will pay better than to have idle land and the so-called waste places on the farm.

Woman's Friend

Nearly all women suffer at times from female ailments. Some women suffer more acutely, and more constantly than others. But whether you have little pain or whether you suffer intensely, you should take Wine of Cardui and get relief.

Cardui is a safe, natural medicine, for women, prepared scientifically from harmless vegetable ingredients. It acts easily on the female organs and gives strength and tone to the whole system.

TAKE CARDUI

The Woman's Tonic

Mrs. Verna Wallace, of Sanger, Tex., tried Cardui. She writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.

We desire to call your attention to our Sanitarium treatment for the cure of Whiskey, Morphine, Opium, Cocaine and all drug habits. We send out no "Home Cures." None of them are a success. Every one must come to our Sanitarium, where we are specially prepared to handle this class of diseases, and where we guarantee a perfect cure in every case within ten days to two weeks for the liquor habit, and for the drug habit two to three weeks.

Our treatment is painless and harmless. We do not care how much you use, or how long, or from what cause, we can cure you to stay cured.

HERE IS OUR UNPARALLELED PROPOSITION: We will take any case of Drug or Liquor addiction, cure them, bear all expenses while the patient is here, such as treatment, board, room and attendant, and not exact one cent compensation until the patient is cured and ready to return home.

We do not send our patients home a physical wreck, with a so-called tonic to build them up. When you leave our Sanitarium you know you are cured, for you are perfectly free from all craving or desire for either drug or liquor. You are eating and sleeping well and taking no medicine home whatever. Our patients gain flesh and strength from the very beginning. If we do not cure you it costs you nothing, so you see you have everything to gain and nothing to lose.
